Add a magic sparkle to your life.

The peaceful trickling of a woodland stream, the sounds of a baby chuckling or the subtle punchline of a friend's joke - life is full of delights that bring smiles to our faces. With the new Run hearing aids from Signia, you can enjoy every one of them to the full. Because when it comes to sharing magical moments, with the new Run, you're in good company.

Great for every conversation, whoever it's with.

At home, whether it's quiet or the kids are running around.

In crowded, very noisy environments, such as restaurants or marketplaces.

A snug fit:

As a behind-the-ear or BTE model, Run sits comfortably behind the ear providing you with the optimum amplification to hear what is really important.

The new Run.

Take your hearing to a higher level.

Convenient and easy to use, the new Run hearing aids are available in two powerful behind-the-ear models for wearers with higher amplification needs. Light and incredibly comfortable, they sit unobtrusively behind the ear for an outstanding hearing experience all day long. Whatever the situation, you can be sure they will deliver superb sound quality.

Run P

Colors:

Run is available in three discreet colors so it is almost unnoticeable behind your ear.

Beige

Grey

Deep Brown

UNDERSTANDING CONVERSATION IN NOISY ENVIRONMENTS

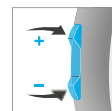

1 Focus on what is really important.

Run's directional microphones pick up the sounds that will be amplified. They focus on sound coming from in front of you while reducing noises from other directions. This way, they let you fully concentrate on your talks, chats and conversations, not on hearing.

EASY HANDLING

2 All options at your fingertips.

Conveniently positioned and easy to use, the rocker switch lets you adjust the volume of your hearing aids quickly and simply for complete comfort.

SOUND TRANSMISSION

3 Your powerful connection to life.

Ideal for wearers with severe hearing loss, the transparent earhook provides a high level of amplification. The length of the tube can be trimmed to fit you precisely which, combined with a range of tip sizes, makes Run highly comfortable to wear.

COMPLETE PROTECTION

4 Rugged, robust and reliable.

Run's housings are trialed and tested in the most challenging environments and are resistant to moisture, sweat, dust and dirt to keep out the rigors of everyday life.

DESIGNED FOR OPTIMUM FIT

5 High comfort meets full convenience.

Thanks to their sleek, ergonomic shape, Run's housings provide a highly comfortable fit behind your ear. And for extra convenience, the hearing aids are easily manageable.

Your Hearing Care Professional will help you decide which hearing aid is the right one for you, depending on your hearing loss, personal requirements and wishes.

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice.
